## About Us

Atlanta Peach Movers is a premier relocation provider with over 30 years of experience offering local, long distance, and international relocation services to commercial customers and government agencies. APM provides a wide array of relocation, short/long-term warehouse and inventory services; including secure warehouse facilities, crate and pack. We offer specialized international freight service with global partners so our company can offer world-wide relocation and freight forward options. Our state-of-the-art systems, equipment, and techniques allow us to track shipments from the time of inventory to when it leaves location, docks, and ports all the way to arrival and inventory at destination.

## CORE COMPETENCIES

## DIFFERENTIATORS

Atlanta Peach Movers, Inc. is a certified minority owned, full-service relocation company offering local and long-distance relocation and storage provider with an emphasis on customer service and satisfaction. We have grown to become one of the premier relocation companies in the Southeast region of the United States. Our Federal Relocation Management Services include “one stop” integrated programming to meet any agency needs, 24/7 communication with program leads, and post relocation audits prior to billing. Our “Peach University” trained packers use clean, sturdy materials and containers designed for safe moving: boxes, crates, and cartons designed to protect all items to be moved. APM moves office equipment in appropriate carts and does not stack equipment on top of each other. All equipment is secured during the move process. That is due to the core mission of the company in protecting the assets and property of our clients. Unlike many of our competitors, APM senior management employees have daily oversight of all jobs underway on any given day using tech-forward tools to ensure exceptional service is being provided to all customers.
